

Orion

Vertical Platform Lift

hydraulic lifting system

A vertical platform lift which can be installed into a standard-built shaftway, with a pit depth of 80mm–100mm. With its innovative design and energy efficient hydraulic lifting system, the Orion is safe and reliable.

Key features include:

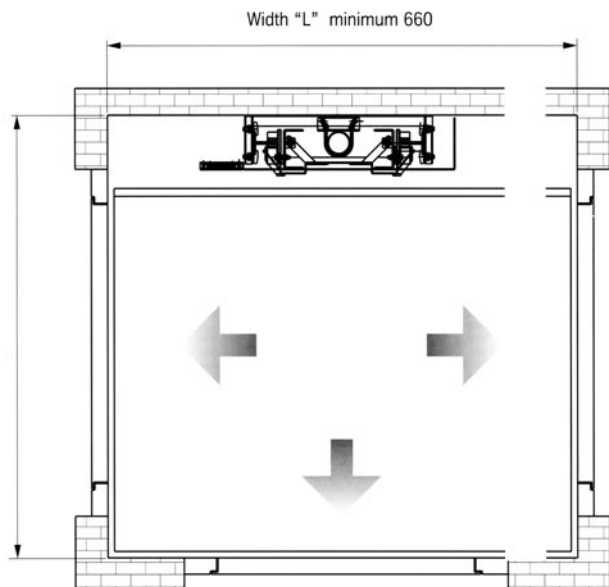

- A platform width that can be tailored to your needs, from 660mm up to 1800mm.
- A wide range of colour options and accessories.
- Self levelling.
- Telephone as standard.

Certified to CE IMQ and TÜV.

The Orion complies to the relevant European directives (DM 236/89, Machine Directive 98/37/CE – ex 89/392/CEE).
